J. ROCK'S  
Descriptive Catalogue  
OF  
**ORNAMENTAL TREES**

Shrubs, Plants, Roses, Etc.

CULTIVATED AND FOR SALE AT

 **ROCK'S NURSERIES** 

SAN JOSE, CAL.

1888

---

LOCATION

**MILPITAS ROAD**

Four miles from San Jose, near Wayne Station, Central Pacific Railroad

---

THE BANCROFT COMPANY,  
PRINTERS  
49 First St., San Francisco  
1888

## NOTICE

---

In presenting this new Catalogue to our patrons, we beg to acknowledge their liberal patronage and hope that we will continue to receive the same in the future. Many new and valuable varieties have been added to the different classes and some of the older and less valuable sorts have been discarded. We invite all customers and all those interested in horticulture to visit our grounds, where they can see many new and rare varieties of Trees, Palms and Plants.

We have learned from twenty-two years' experience in packing and shipping trees to distant places, how to pack both safely and economically, for any part of the country, North or South.

There is no country or climate better adapted than our locality to grow all the varieties of Trees and Plants, suitable for the North or South. The wind from San Francisco Bay seems to be particularly favorable to perfecting the hardihood of trees. During their long season of growth, they are subject to various changes from hot, sunny days, to cold, boisterous winds, which prepare them for endurance to the utmost degree of cold of northern latitudes.

---

### WE ARE NOT RESPONSIBLE

For any one representing himself to be our agent. Those only who can show a certificate of recent date, with our signature attached, are authorized to solicit orders for us. Some unprincipled persons, knowing something of the good reputation of our Nurseries, in a surreptitious manner have procured our catalogues and taken orders which were filled from poor stock procured elsewhere, the tendency being to bring us into disrepute. If our patrons will notify us of such persons we will consider it a favor, and deal with them as they deserve.

---

## Location of Nurseries and Greenhouses

ON

Milpitas Road, Four Miles North of San Jose

---

### HOW TO VISIT US FROM SAN FRANCISCO

Take the morning train of the Central Pacific Railroad which leaves San Francisco from Market Street Wharf at 8:00 A. M. Buy a ticket for San Jose. Notify the conductor to stop the train at *Wayne Station*, which is fifteen minutes walk from the Nurseries. Visitors, if they desire it, can return by the afternoon train, which will allow them about three hours' time.

## PLANTS AND TREES BY MAIL

We will send small Trees and Plants by mail, providing that these are at such stage of growth and size to allow them to be packed in small packages not exceeding four pounds. An additional charge of one cent per ounce will be made for postage on all packages sent by mail. We cannot guarantee their safe delivery, but will in all cases use our utmost care in the packing and execution of mail orders.

---

## ADVICE TO CORRESPONDENTS

Correspondents will greatly oblige us by observing the following:

All orders should be made out in a list by themselves—not mixed up with the body of the letter.

Persons not acquainted with the different varieties of trees and plants, will do well to leave the selection to ourselves, as we shall send only such as give general satisfaction.

All orders from unknown correspondents must be accompanied with remittance or satisfactory reference.

All trees are carefully labelled and packed in the best manner of shipping, according to distance, for which a charge will be made only to cover first cost of material and labor.

Directions for Shipping should be given by purchasers, naming the route by which they desire the goods sent. Otherwise we will forward to the best of our judgment. After delivery to the forwarders, all articles are entirely at the risk of the purchaser, and should any loss or delay occur, the forwarders alone must be responsible.

All articles will be delivered to the railroad depot or express office without charge.

Any errors of ours in filling orders will be cheerfully rectified on our receiving notice.

Remittance may be made by check or draft on San Francisco or San Jose, Postoffice order, Express money order or registered letter to San Jose Postoffice.

Letters requiring information promptly answered.

---

 Correspondents will please address all letters to

JOHN ROCK, Nurseryman  
SAN JOSE, CAL.

"Marechal Niel" Rose

## DECIDUOUS ORNAMENTAL TREES

On all extra-sized Trees selected, an additional charge is made.

<b>Ailanthus Glandulosa</b> —A lofty, rapid-growing tree, exempt from diseases and insects.....	25c to	40
<b>Alder</b> ( <i>Alnus</i> ) <b>Cordata</b> —An erect growing, handsome tree, with clean, bright foliage; delights near streams, ponds and other moist places.....		50
“ <b>Incana</b> —A more robust growing variety than the above, having darker and larger leaves		50
<b>Ash, European</b> , ( <i>Fraxinus</i> )—Makes a tall tree with spreading head.....		40
“ <b>Walnut-leaved</b> , ( <i>Juglandifolia</i> )—Erect grower.....		50
“ <b>White</b> , ( <i>Americana</i> )—One of the prettiest trees when full grown, valuable for its timber		40
“ <b>Weeping European</b> .....	1	00
“ “ <b>Gold-barked</b> —A singular variety; bark in winter yellow as gold.....	1	00
<b>Beech</b> ( <i>Fagus</i> )—Has green, glossy foliage, and slender, feathery branches.....	1	00
“ <b>Purple-leaved</b> —An elegant vigorous growing tree, with deep purple foliage in spring, which later, changes to crimson, and again in the fall, to a dull purplish green.....	2	50
“ <b>Cut-leaved</b> —Medium growth, cone-shaped and compact; peculiar airy outline, fine cut-leaved foliage; one of the most choice and symmetrical of deciduous trees.....	3	00
“ <b>Weeping</b> ( <i>Pendula</i> )—Medium size, very irregular and eccentric form, rich foliage, piled in masses, one of the most ornamental deciduous trees.....	3	00
<b>Birch</b> ( <i>Betula</i> ) <b>Cut-leaved Weeping</b> —One of the most popular of all weeping trees; its tall, slender branches, silvery-white bark and fine-cut foliage make it very attractive.....	1	00
“ <b>Purple-leaved</b> —Beautiful purple foliage, as dark in color as that of the Purple Beech....	1	00
“ <b>White</b> —An elegant tree, with white bark and slender, drooping branches.....		50
“ <b>Young's Weeping</b> —a fine variety, being more robust than the Cut-leaved Weeping Birch .....	1	50
<b>Catalpa Bignonoides</b> —A medium-sized tree, with large leaves and white flowers, tinted with red and violet .....		50
“ <b>Kaempferi</b> —A Japan variety; makes a beautiful small tree, with large leaves and large, lilac-like flowers.....		50
“ <b>Aurea</b> —The Golden-leaved Catalpa; new and fine.....	1	00
<b>China Umbrella Tree</b> , or <b>Texas Umbrella</b> ( <i>Melia Azedarach Umbraculiformis</i> )—A variety of the Pride of China Tree, but more hardy. It assumes a dense spreading head, resembling a gigantic umbrella, and is of unique appearance. The most popular shade and avenue tree in the Southern States.....	50c to	1 00
<b>Cydonia Sinensis</b> ( <i>Chinese Quince</i> )—An interesting tree of great rarity; large fruit.....		75
<b>Elm</b> ( <i>Ulmus</i> ) <b>American White</b> —A magnificent, rapid growing tree, with drooping branches, 25 to 40		
“ <b>Cork-barked</b> ( <i>Suberosa</i> )—Branches very corky. This tree will grow in almost any soil, wet or dry. It is extensively planted on streets and avenues.....	30 to	75
“ <b>French</b> ( <i>Campestris</i> )—A graceful, lofty tree; it leaves out early and retains the foliage until late; very desirable tree for street planting.....	40 to	60
“ <b>Huntington</b> —Of very erect habit; rapid and vigorous growth. One of the finest European Elms .....		60
<b>Elm, Kiaki</b> ( <i>Planera Accuminata</i> )—Medium size tree, with elegant foliage; smooth, glossy, bright green, and deeply indented leaves, very ornamental.....		50
“ <b>Purple-leaved</b> —A rapid upright-growing variety.....		50
“ <b>Scotch</b> —A fine spreading tree, of rapid growth.....		50

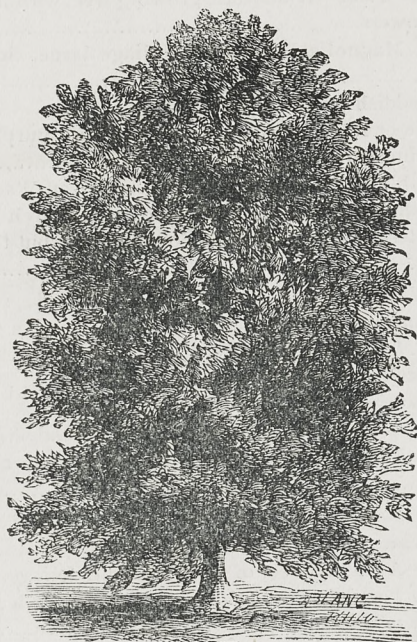

Cut-Leaved Weeping Birch

- Elm, Variegated (*Variegata Argentea*)—Variegated English Elm; leaves sprinkled over with silvery spots; very fine..... 50
- “ Weeping (*Camperdown Weeping Elm*)—The most graceful weeper of all Elms; foliage large; very ornamental..... 1 00
- Hackberry (*Celtis Occidentalis*)—A fine tall-growing tree, habit and growth like an Elm..... 50
- Horse Chestnut (*Æsculus*), European.....50c to 1 00
- “ “ Red Flowering—A splendid tree, with showy red flowers ..... 1 00

Linden (European)

- Judas Tree, Japan (*Cercis Japonica*)—The flowers are of a bright rose color..... \$ 50
- “ “ Red Bud (*Cercis Canadensis*)..... 50
- “ “ Red Bud (*Cercis Siliquastrum Carneum*)..... 50
- Laburnum (or Golden Chain)—A beautiful small tree, with drooping yellow flowers ..... 75c 50
- “ Weeping—A weeping variety of the above, producing a fine effect..... 1 50
- Larch Japanese (*Leptolepsis*)—Money Pine of Japan; the most vigorous grower of the Larches; slender, dark, yellowish ash-colored branches, with green foliage..... 75
- Linden, American (*Tilia Americana*)—A rapid growing, beautiful native tree..... 75c to 1 00
- “ European (*Tilia Europea*)—A very fine tree, with large leaves and fragrant flowers 75c to 1 00
- “ European (*Lacinia Rubra*—Red Cut-leaved Linden)—A fine variety, with bright rose-colored young wood..... 1 00
- “ Handsworth Orange<sup>5</sup> Twigged..... 75
- “ Weeping—A charming lawn tree, with very graceful drooping branches..... 1 50
- Locust, Bessoniana—A noble looking tree of fine regular growth, very valuable for ornamental grounds, and one of the best for planting avenues. It is without thorns, and is regarded as the most ornamental of all the locust family..... 50 to 75
- “ Decaisneana—Remarkable for its vigorous growth and the fine rose colored flowers it produces in great abundance. This and the foregoing variety are unsurpassed in beauty as avenue trees..... 50 to 75
- “ Inermis (*Globe or Parasol Acacia*)—A remarkable, thornless and pretty tree, with a round, dense head like a ball..... 1 00
- “ Semperflorens—A very remarkable new variety, of great vigor. It is a constant and abundant bloomer from May till September..... 75
- “ Moss or Rose Acacia—A beautiful flowering variety from the Southern States; grafted on a common Locust..... 75
- “ Yellow (*Robinia Pseudo-acacia*)—Well known..... 25c. to 75
- “ Honey (*Gleditschia Triacanthos*)—The well-known Honey Locust..... 25c. to 50

Kentucky Coffee Tree ( <i>Gymnocladus Canadensis</i> )—A fine tree, with long, feathery foliage.....	\$ 50
Kolreuteria Paniculata—A pretty, small tree, with fine, lobed leaves, and large, yellow flowers.....	50
Magnolia Acuminata ( <i>Cucumber Tree</i> )—A majestic growing tree, with large conspicuous leaves and yellowish-white flowers.....	1 00

“ <b>Menziesii</b> ( <i>Menzies' Spruce</i> )—Slow but large growth, pyramidal, thickly branched and silvery in appearance; stiff prickly leaves.....	1 00
“ <b>Nordmaniana</b> ( <i>Silver Fir</i> )—This Fir is of recent introduction; slow growth, eventually large; horizontal branches; dark green, massive foliage, silvery underneath, broad and compact.....	2 00
“ <b>Pinsapo</b> ( <i>Pinsapo Fir</i> )—Very handsome, densely branched; branches very thickly placed in whorls, and spreading horizontally. A picturesque and beautiful evergreen	1 50
<b>Acacia Armata</b> —Foliage dark green; flowers of a rich golden yellow in great profusion.....	40
“ <b>Cultiformis</b> —Flowers deep yellow; growth erect; foliage glaucous, of peculiar shape.....	50
“ <b>Dealbata</b> —One of the best of its class; fine feathery foliage; flowers in Winter.....	25c. to 50

Abies Menziesii

Acacia Falcata.....	\$	40
“ Leiophylla.....		40
“ Latifolia—A strong-growing tree, with fine foliage and yellow flowers; early in Spring.....	25c to	50
“ Longifolia Floribunda—A rapid growing tree; flowers profusely.....	25c to	50
“ Melanoxyton—Makes a fine symmetrical tree, of large size.....	25c to	50
“ Retinoides.....	25c to	50
“ Mollissima—An elegant tree, with fine feathery foliage.....		50
“ Verticillate.....		50
Araucaria Bidwellii—This makes one of the handsomest specimens on a lawn, and perfectly hardy.....	\$3 to	5 00
“ Braziliensis (Brazilian Pine)—A most beautiful evergreen tree; habit similar to the Chili Pine, but the tree is a more vigorous grower and is perfectly hardy.....		3 00
“ Excelsa (Norfolk Island Pine)—It requires protection in the interior of the State, but is hardy all along the coast south of San Francisco ..	\$3 to	10 00
“ Imbricata (Chili Pine)—A tall tree of singular habit and striking aspect, branches are in tiers or whorls, leaves overlapping each other like the shingles on a roof; very hardy.....	\$2 to	25 00
Arbor Vitæ, Elegantissima—A beautiful tree of pyramidal form, with foliage prettily tipped with deep yellow, which it retains throughout the year.....	\$1 to	2 00
“ Ever Golden (Semper Aurea)—A new variety of the Golden Arbor Vitæ, of dwarf habit, but of a free growth. It retains its golden tint the year round. One of the best golden variegated evergreens.....	\$1 to	2 00
“ Filiformis Pendula—Weeping, thread-like foliage; very curious.....		1 50
“ Filiformis—A most beautiful compact growing variety, having thread-like foliage. Very rare.....		1 50
“ Golden (Biota Aurea)—One of the most beautiful of evergreen trees; foliage yellow in Spring.....	.75c to	1 00
“ Lobb's (Thuja Lobbi)—This California Arbor Vitæ is a very fast growing tree, and grows to a large size; branches very flexible and slender, shining green on the upper side and glaucous underneath.....		1 00
Blue Gum (Eucalyptus Globulus)—The well-known Australian tree.....	25c to	50
Big Tree—The celebrated Big Tree of California. A strong and erect grower; foliage bright green. It presents a striking appearance. Very popular tree.....	50c to	2 00
Cedar, African, or Silver Cedar—A magnificent tree of great height.....	\$1 to	2 50
Cedar, Deodara—One of the most elegant of all evergreen trees; branches drooping, foliage light blue, \$1 to 2 00 extra large specimens, from \$5 upwards.		
“ “ Variegata.....		2 50
“ of Lebanon—One of the most celebrated and interesting trees.....	\$1 to	2 00

Lawson's Cypress

- Camphor Tree (*Laurus Camphora*)—A fine ornamental tree from Japan, with bright, shining green foliage. The young growth appear in a most beautiful shade of red and purple. The roots, wood and leaves of this tree have a very strong odor of camphor, and from the roots and small branches, camphor is obtained by distillation.....25c to 50
- Cephalotaxus Fortunei*—A very handsome tree from Japan..... 1 00
- Crataegus Glabra* (*Photinia*)—A handsome tree, with large, glossy leaves and white flowers 50c to 1 00
- Cryptomeria Elegans*—A distinct form from the Japonica, with fine dense foliage, turning bronze brown in winter..... 1 50
- Cryptomeria Japonica* (*Japan Cedar*)—A beautiful tree from China and Japan, growing 50 to 60 feet high, presenting a beautiful appearance..... 1 00

Grevillea Robusta

- Cypress Funeral (*Funbris*) — Beautiful drooping foliage; well adapted for planting in cemeteries .....50c to 1 00
- “ *Gracilis*—Foliage of a beautiful glaucous green, and regular outline of growth.....50c to 1 00
- “ *Guadalupensis*—Foliage with a bluish cast, a strong and erect grower..... 75
- “ *Lusitanica*—A fast growing tree with spreading flexuose branches, and with scale-like pointed leaves.....25c to 50
- “ *Lawson's*—A very graceful tree, with a bluish green foliage.....50c to 1 00
- “ *Monterey*—This tree is a well-known and more planted than any other evergreen tree in California.....25c to 50
- “ *Variegated*—A variegated kind of Monterey Cypress, the branches being mottled with yellow..... 1 00
- “ *Italian*—This tree grows column-like, very erect, which gives it a striking appearance; much used for arches over gates and entrances.....40c to 75

<i>Eucalyptus Amygdalina</i> ( <i>Mess Mate</i> )—A handsome variety and excellent for timber.....	\$	25
“ <i>Marginata</i> .....		25
<i>Ficus Macrophylla</i> ( <i>Rubber Tree</i> )—A magnificent tree with large leaves; this is hardy along the coast south of San Francisco, but is too tender for the interior of California.....	\$1 to	2 00
“ <i>Bengalensis</i> .....		1 50
“ <i>Elastica</i> —Leaves very large, from 6 to 18 inches long and 3 to 6 in width; dark shining green above and yellowish green beneath. A grand tree.....	\$1.50 to	2 00
“ <i>Indica</i> .....		1 50
“ <i>Seryngiafolia</i> .....		1 00
<i>Grevillea Hillei</i> .....		75
“ <i>Robusta</i> —A rare, beautiful tree, of strong growth, with fern-like foliage.....	50c. to	75
<i>Holly</i> —Evergreen small trees, with beautiful dark green leaves; grows moderately fast. The plants are covered during the winter months with bright red berries.....	50c. to	1 00
“ <i>Variegated Varieties</i> —The leaves are of different shades of yellow and white, and some are curiously shaped. All are, however, very ornamental and most suitable for lawns. They are also covered with red berries during the winter months.....	\$2.50 to	4 00
<i>Juniperus Drupacea</i> —Plum-fruited Juniper .....		75
“ <i>Excelsa</i> —A strong, upright-growing variety.....		75
“ <i>Fragrans</i> —A strong-growing variety, with glaucous grey foliage.....		75
“ <i>Hybernica</i> ( <i>Irish</i> )—Very close and upright in growth, with a silvery glaucous appearance. A charming plant for rock-work and for columnar effects in landscape gardening.....	75c. to	1 00
“ <i>Pendula Viridis</i> ( <i>Weeping Caucasian Juniper</i> )—Light green foliage; upright form; delicate thread-like branchlets.....		1 50
“ <i>Prostrata</i> —A prostrate shrub, trailing along the ground, not rising more than six or eight inches high, but spreading over a large space; leaves dull, shining green.....		1 00
<i>Libocedrus Decurrens</i> —A fast-growing tree, with flat branches standing erect.....	50c. to	1 00
<i>Loquat</i> ( <i>Mespilus Japonica</i> )—A beautiful ornamental tree, with large, glossy, dark green leaves, producing white flowers, which have the delicious perfume of the Hawthorne... 50c. to		1 50
<i>Magnolia Fuscata</i> —A pretty dwarf shrub with small leaves and yellowish-white flowers, very fragrant.....	\$1 00 to	2 50
<i>Magnolia Grandiflora</i> —The most majestic of all American trees; a native of the Southern States; perfectly hardy here.....	50c. to	1 00
Extra large.....	\$5 00 to	10 00
For other varieties see Magnolias.		
<i>Madrone</i> —A beautiful native tree of California; the foliage is of a deep green, and leathery; it attains a considerable size, flowers white.....		75
<i>Nutmeg Tree</i> ( <i>Torreya Californica</i> )—A beautiful and interesting tree, a native of California .....	50c. to	1 00
<i>Oreodaphne California</i> ( <i>California Laurel</i> )—A rapid growing native tree; the foliage is of a light green, and emits an agreeable perfume.....		50
<i>Oak Japan</i> ( <i>Quercus Cuspidata</i> )—A rare tree of great value; large broad leaves of a glossy dark green, covered when young with a brownish down.....		1 50
<i>Pepper Tree</i> ( <i>Schinus Molle</i> )—A well-known tree with beautiful glossy green leaves.....	25c. to	50
<i>Pine</i> ( <i>Pinus</i> ), <i>Austrian</i> —A robust, hardy, spreading tree; with long, dark leaves.....		1 00
“ <i>Albicaulis</i> —A fine vigorous tree, having a whitish color.....		1 00
“ <i>Canariensis</i> ( <i>Canary Islands' Pine</i> )—A fast growing variety with fine bluish foliage.....		1 00
“ <i>Coulteri</i> —A rare and beautiful pine, with glaucous green foliage.....		75
“ <i>Densiflora</i> —This is a native of Japan, a tree of strong growth, rich, dark massive foliage. One of the finest of all Pines; new and rare.....		1 00
“ <i>Jeffreyi</i> —A noble tree with bluish green leaves. Hardy and very valuable.....		1 50
“ <i>Massoniana</i> —A large sized Japanese tree of very fresh and bright green appearance.....		1 00
“ <i>Monophylla</i> .....		75
“ <i>Monterey</i> ( <i>Insignis</i> )—A very rapid growing tree, well known and planted everywhere, 25 to		50
“ <i>Pinsapo</i> .....		1 00
“ <i>Ponderosa</i> —A noble tree of rapid growth, attaining the height of 100 feet. The leaves are very long and of silvery green color .....		75

Pine <i>Sabiniana</i> —A large, noble tree, valuable for landscape effect; it has a rapid growth, is twisted; drooping leaves, are very long and of a silvery grey color .....	\$1 50
“ <i>Toreyanna</i> .....	75
“ <i>Tuberculata</i> —Makes a handsome tree, of a fine light green color.....	50
Redwood ( <i>Sequoia Sempervirens</i> )—A graceful, rapid growing evergreen tree, very valuable for its timber.....	25 to 1 00
Retinospora <i>Pisifera</i> ( <i>Japan Cypress</i> )—A small tree or shrub recently introduced from Japan, of modern growth and well adapted for small gardens.....	50
Sciadopitis <i>Verticillata</i> ( <i>Umbrella Pine</i> )—From Japan, slow growth when young, eventually large size; dark green shining foliage, arranged in whorls or umbrella-like tufts on horizontal branches.....	3 00
Taxus ( <i>Yew</i> ) <i>Adpressa</i> —Low-spreading, dark green leaves; branches numerous and densely covered with foliage.....	\$1 50 to 3 00
“ <i>Adpressa Stricta</i> —More erect growing than the above.....	1 50 to 3 00
“ <i>Aurea</i> —The color in June is of a rich golden hue, unsurpassed by any variegated evergreen; resembles Taxus <i>Elegantissima</i> , but of a much richer golden hue.....	2 00
“ <i>Baccata</i> ( <i>Common European Yew</i> )—Large bush or tree, slow-growing, with short stems and very bushy head, densely branched, thickly covered with drooping, sombre green leaves.....	50 to 1 00
“ <i>Cheshuntensis</i> ( <i>Cheshunt Yew</i> )—Pyramidal habit; Intermediate form between the Irish Yew and the parent Taxus <i>Baccata</i> .....	1 00
“ <i>Dovastoni</i> ( <i>Dovaston's Yew</i> )—Long dark foliage, and very pendulous branches.....	1 00
“ <i>Dovastoni Pendula</i> —A weeping form of the above.....	1 00
“ <i>Elegantissima</i> ( <i>Elegant Yew</i> )—Light straw color, especially in June, more of a dark green towards fall; very rich and effective in color.....	1 00
“ <i>Erecta</i> ( <i>Erect Yew</i> )—Erect form, small foliage, very close and fastigiate, forming a massive evergreen pyramid.....	1 00
“ <i>Fastigiata</i> ( <i>Irish Yew</i> )—Peculiarly upright in growth, like a bundle of closely packed branches; deep blackish green foliage; very beautiful and valuable.....	\$1 50 to 8 00
“ <i>Aurea</i> ( <i>Golden Irish Yew</i> )—Leaves green in the center, and margined with yellow, 2 00 to	5 00
“ <i>Cuspidata</i> ( <i>Abrupt Pointed Yew</i> )—Dense, bushy, with somewhat ascending branches, and dark green foliage, moderate growth.....	1 00
Thujopsis <i>Dolabrata</i> ( <i>Hatchet Leaved</i> )—Vigorous horizontal branches, which are pendulous at the extremities, flattened leaves.....	75
“ <i>Dolabrata Variegata</i> —Foliage very attractive, of a bright green, and silvery white beneath, clasping the stem closely and giving it a peculiar effect. The branchlets being flat make it look like a <i>Lycopodium</i> .....	1 00

## MAGNOLIA GRANDIFLORA

The Grand Magnolia of the Southern States is perfectly at home in California, and is the most popular of all American Evergreen Trees. No garden is complete without it.

Disappointment often follows after planting Magnolias grown from seed, in their not blooming when expected. As trees grown from seed vary in growth, size and form of leaf, and most of all, in coming into bloom; some will flower very freely when only a few feet high, while others attain a large size before showing any flowers. We have imported and propagated several improved varieties of the *Magnolia grandiflora*, all of which have very fine foliage, and are deliciously fragrant; well-shaped flowers produced on plants when young.

**Chamaerops Excelsa**

Double Nantais—A beautiful variety, having double flowers; very free flowering.....	\$2 to \$ 5 00
Gloriosum, of American origin—Flowers very large.....	2 00
Canaiculata.....	3 00
Crispa—Petals fringed very beautifully.....	2 00
La Gallissoniere—This variety is hardier than the common varieties of Magnolia Grandiflora, and can be grown where the more tender varieties would fail.....	2 00
Oxoniensis—Fine, double-flowered variety, very free bloomer.....	\$2 to 5 00
Oxoniensis Hybrida—A variety of the above, with larger flowers and deeper foliage.....	2 00
Precoce du Grand Jardin—An early flowering variety; the flowers are of a medium size; tree a moderate grower.....	2 00
Precoce du Mans—An early, double-flowering variety; tree of medium size.....	2 00
Seedlings of Grandiflora.....	50c. to 1 00
Extra large, grown in boxes, blooming size.....	\$5 00 to 10 00

## PALMS, DRACAENAS, AGAVES, YUCCAS, ETC.

We make the growing of palms a specialty, and have all the varieties offered here growing out of doors, with exception of Seeforthia elegans and Cycas revoluta.

Large specimens five to ten years old can be furnished from three to ten feet in height of Chamærops, Phoenix and Pritchardias; prices will be given on application.

Brahea Calcarata—An elegant Fan Palm, of slender growth, from New Granada, very scarce..	3 00
Chamærops Excelsa ( <i>Japanese Fan Palm</i> )—A very hardy Palm, with an erect stem, 20 to 30 feet high, and dark green, erect, fan-shaped leaves, deeply cut into narrow segments.....	\$1 to 2 50
Large specimens.....	\$3 to 10 00
" <i>Hystrix</i> —A slow-growing, glaucose Fan Palm, native of the Southern States.....	3 00
" <i>Humilis</i> —A Fan Palm of dwarf habit; it is a native of Southern Europe, and very hardy; this makes a splendid specimen if planted by itself on a lawn.....	\$2 50 to 6 00
" <i>Martiana</i> —A variety resembling Chamærops Excelsa, but it is more hardy, thus enabling it to be grown further north than Chamærops Excelsa.....	3 00
Cycas Revoluta ( <i>Sago Palm</i> )—Fine, dark glossy pinnate leaves; small plants \$1; larger \$2 50, fine large trunks from.....	\$5 to 25 00
Erythraea Edulis—A fine Palm from Guadalupe Island; fine young plants .....	2 00
Pandanus Veitchii—Strong young plants, finely variegated.....	2 00

*Cycas Revoluta* (Sago Palm)

Phoenix	<i>Dactylifera</i> ( <i>Date Palm</i> ) Common Date.....	\$1 to 5 00
"	<i>Canariensis</i> —A more hardy variety than the foregoing.....	\$2 to 5 00
"	<i>Cycadifolia</i> .....	2 50
"	<i>Tenuis</i> —This is a very hardy, elegant and desirable variety of Date Palm.....	2 50
"	<i>Reclinata</i> —An elegant Date Palm; the leaves have a pendulous habit.....	\$3 to 5 00

*Chamaerops Humilis*

Pritchardia	<i>Filifera</i> ( <i>Brahea Filamentosa</i> )—California Fan Palm. This is a native of San Diego County; it is the handsomest and most vigorous variety that is grown.....	75c to \$ 2 00
	large specimens .....	from \$3 to 25 00
Sabal	<i>Andansonii</i> —A handsome Fan Palm from Florida.....	3 00
"	<i>Blackburniana</i> .....	5 00
Seaforthia	<i>Elegans</i> .....	2 50
Dracæna	<i>Stricta</i> ( <i>Australis</i> )—A Palm-like tree, with long, flag-like leaves; invaluable in landscape gardening. Small plants 50c; larger.....	\$1 00 to 3 00
"	<i>Fosteri</i> —Similar to above but with broader leaves.....	\$1 to 3 00

*Spathoglottis elegans*

<i>Dasyllirion Glaucum</i> .....	\$3 00
“ <i>Gracile</i> .....	3 00
<i>Beaucarnea Tuberculata</i> .....	4 00
<i>Agavea—Americana Variegata</i> —The well-known Century Plant; leaves finely striped.....	50c to 1 00
<i>Yucca Aloefolia Rubra</i> —A very striking looking plant, with brownish, stiff leaves.....	\$1 to 5 00
“ <i>Aloefolia Variegata</i> —Leaves variegated green and white, the white sometimes tinged with pink.....	\$2 to 5 00
“ <i>Aloefolia Quadricolor</i> —Very fine plants of this beautiful variety.....	\$2 to 5 00
“ <i>Filamentosa</i> .....	\$ 50
“ <i>Pendula</i> —Leaves finely curved; one of the best plants for vases.....	50c. to 2 50
“ <i>Plicata</i> —A very ornamental kind.....	1 00

## BAMBOOS

We can confidently recommend to all lovers of trees and plants the following varieties of Bamboo, after having tried them for a number of years, to be perfectly hardy and vigorous. Nothing can exceed the grace of a bamboo of any kind if freely grown. To obtain the best results in their cultivation, they should be planted in a light, deep, and rich soil.

<i>Bambusa Aurea Striata</i> —Of a dwarfer variety; the leaves are striped with golden yellow.....	\$ 75
“ <i>Argentea Striata</i> —A variety having black stems; the foliage is striped white.....	1 50
“ <i>Falcata (Arundinaria Falcata)</i> —A very ornamental specie from Nepaul and the Himalayas; grows 20 feet high; it sends up young shoots, long and graceful, like the slenderest of fishing rods, while the older ones are branched into a beautiful mass of light foliage of a distinct type.....	50c. to 1 00
“ <i>Fortunei</i> —A dwarf, fine growing variety, having the foliage striped with white.....	50
“ <i>Japonica (Metake)</i> —A large leaved and rather dwarf specie from Japan, growing 7 feet high, with erect, thickly tufted stems, which are entirely covered by the sheaths of the leaves; the branches are also erect; dark green leaves.....	50
“ <i>Nana</i> —A very dwarf growing kind, of a light green color.....	50

*Bambusa Viridis Striata.*

- Bambusa Nigra**—A compact growing Chinese kind, with nearly solid stems, and thinner leaves than those of any other specie; stems smooth and bushy, about 7 to 10 feet high, of a light green, dotted and striped with purple when young, changing to a glistening black when fully grown; they branch very much at the top, and sometimes from the base up. \$1 00
- “ **Quilioi**—A Japanese specimen of vigorous growth, with robust green stems and bright green leaves, the ligule bearing a little bundle of brownish grey hairs at the top..... 1 00
- “ **Simonii**—A handsome, distinct and vigorous specie; the stems are numerous and grow as much as 10 feet high in a season; the leaves are narrow, sometimes nearly a foot long, and are occasionally striped with white..... 1 00
- “ **Violascens**—A hardy and vigorous kind, it has a blackish violet, much branched stem, which assumes a yellow tinge with age; the leaves are green above, bluish grey beneath 1 00
- “ **Viridis Striata**—Vigorous growing, hardy, with numerous branches, having its long, green leaves on both sides, and marked with bands, some of a yellowish and others of a deeper green; native of Japan; one of the best varieties; having made 25 feet growth in one year on our grounds..... 1 00

## EVERGREEN SHRUBS

- Abutilon** (*Chinese Bell Flower*).....
- “ **Boule de Neige**—A new variety with pure white flowers.....
- “ **Wm. Fowler**—Bright canary yellow.....
- “ **Duc de Malakoff**—Flowers crimson veined.....
- “ **Mesepotanicum**—Scarlet and yellow.....
- “ **Santana**—Flowers brownish crimson.....35c. each

Aralia Papyrifera

- Achania Malvaviscus (*Turk's Cap*)—Beautiful scarlet flowers..... \$0 50
- Aralia Papyrifera (*Chinese rice paper plant*)—Large handsome leaves and very free in growth... 1 00
- “ Sieboldii—Beautiful plants with large, glossy, palmate leaves.....50c. to 1 50
- “ “ Variegata—A variety of the above; leaves finely variegated..... 2 00
- Arbutus Unedo—An evergreen shrub, covered during the winter months with fruit resembling a strawberry; hence the name of Strawberry Tree..... 75
- Ashberry, Japan (*Mahonia Japonica*).....50c. to 1 00
- “ (*Mahonia Aquifolia*)—Fine glossy leaves. The Mahonias are covered during the winter and early spring with yellow fragrant flowers..... 50
- Aucuba Dentata Folio Variegata—A beautiful variety, having very finely variegated foliage..... 75
- “ Fœmina Picta—A fine golden variegated kind..... 75
- “ Himalayica—A green leaved kind, producing red berries very freely..... 75
- “ Japonica—A beautiful shrub, with large, shining, gold blotched leaves; requires shade 50
- These are fine shrubs of low growth; leaves large and glossy; covered during the winter with red berries.
- Berberis Darwini—This is the finest of all Berberis; foliage small, thick and leathery; flowers orange yellow, abundantly produced, and of a delicious fragrance..... 50
- “ Dulcis (*Sweet-fruited Berbery*)—Medium size, flowers bright yellow; berries round and black, almost the size of a small black currant. Very abundant. The effect of these berries and the shining, leathery foliage is very striking..... 50
- “ Stenophylla—A variety with very small foliage and beautiful orange yellow flowers..... 50
- Box Dwarf—Makes a pretty little bush..... 25
- Buxus Sempervirens (*Box Tree*)..... 50
- “ Folia Argentea Variegata ..... 50
- “ Folia Aurea Striata..... 50
- Camellia Japonica—The most beautiful of all winter flowering shrubs. To grow them successfully in the open ground they require a little extra care, and shaded the first season after planting.
- “ “ Double White.....\$1 50 to 5 00
- “ “ Double Pink.....\$1 50 to 2 50
- “ “ Double Red.....\$1 50 to 2 50
- “ “ Variegated—Red, striped white.....\$2 00 to 3 00
- Choisya Ternata—This is a free growing and beautiful shrub, a profuse bloomer; pure white, sweet scented flowers like orange blossoms..... 75
- Cotoneaster Nepalensis—A very strong growing variety, being covered during the fall and winter months with bright red berries..... 50

Daphne Odorata—Very fragrant flowers.....	\$ 75
“ Japonica—.....	50c. to 2 50
Japonica Folia Variegata—Beautiful winter flowering shrubs, with highly fragrant flowers.....	50c. to 2 50
Diosma Alba—A handsome little shrub with white star-like flowers.....	50
Euonymus Japonica, Duc d'Anjou—A beautiful variety, the center of the leaves being variegated with a golden yellow.....	40
“ Japonica—Bright green, glossy leaves.....	25
“ Japonica Aurea—Golden yellow, mottled foliage.....	40
“ Latifolia Aurea Marginata.....	40
“ Japonica Radicans Fol. Variegata—A creeping variety with silver edged foliage.....	25
“ Pulchellum.....	25
“ Japonica Tricolor—An extremely graceful variety, being finely variegated.....	50
Escallonia Besterianum—Of medium growth, the best white Escallonia.....	50
“ Rosea—Of dwarfer growth than the above. The flowers are of a light rose color.....	50
Eugenia Australis—A very fine evergreen shrub; the leaves have a spicy, pungent taste; the flowers are white.....	50
Fabiana Imbricata—Fine, erect growing shrub, with tube-shaped flowers.....	40
Genista Candicans—Very profuse flowering shrubs, in early Spring.....	40
Habrothamnus Elegans—A rapid growing shrub, with clusters of reddish purple flowers.....	40
Heath, Mediterranean ( <i>Erica</i> )—A dwarfish, winter blooming shrub.....	40
Jasmine Grandiflorum ( <i>Catalonian</i> )—Flowers double, white, very fragrant.....	50
“ Officinalis ( <i>common white</i> ).....	25
“ Sambac—A rapid growing variety, with large, clear white fragrant flowers.....	50
“ Yellow ( <i>Revolutum</i> )—A beautiful shrub with yellow, fragrant flowers.....	50
Laurel, English ( <i>Laurus Cerasus</i> )—Broad, shining leaves.....	50
Laurus Lusitanica ( <i>Portugal Laurel</i> )—A very compact, small tree with glossy foliage and white fragrant flowers.....	50c. to 75
“ Lusitanica Azorica—A beautiful small tree, with very large, deep green foliage and white fragrant flowers; rare.....	75
“ Nobilis ( <i>Sweet Bay</i> )—One of the most ornamental shrubs; leaves and berries; very fragrant.....	Small plants 50c; larger 1 00

Laurus, Tinus—The handsomest of our winter flowering shrubs, clusters of pretty white flowers.....	\$ 50
“ Tinus Roduntifolia—A fine variety with round leaves.....	50
Ligustrum Coriaceum—A fine dwarf variety, with thick leathery leaves and large white flowers.....	1 00
“ Japonicum—A tall growing shrub, with white fragrant flowers.....	25c. to 50
Metrosideros Semperflorens ( <i>Bottle Brush</i> )—Shrub with conspicuous crimson flowers.....	75
Myrtle ( <i>Myrtus Communis</i> )—Beautiful, fragrant foliage, and white flowers.....	50
Oleander, Double Red—Very floriferous.....	50
“ Lillian Henderson—Flower white, flat and double.....	50
“ Mad Sahut—Clear rose, lightly shaded scarlet.....	50
“ Mad Chas. Baltet—Semi-double; fine rosy carmine.....	50
“ Madoni Grandiflora—A very strong growing variety, with semi-double, pure white flowers of large size; this is by far the best white Oleander.....	50
“ Purpureum Grandiflorum—Deep rose colored flowers.....	50
“ Single White.....	40
“ Variegated—Leaves finely variegated.....	1 00
Oleanders do not receive the attention they should; they are the most profuse bloomers from May to November. Often they are planted in unsuitable places. They require a full exposure to the sun to keep them healthy and make them flower profusely.	
Olea Fragrans—A very fine shrub or small tree, having large, shining leaves, and producing a profusion of small, white, very sweet scented flowers.....	50c to 1 00
Osmanthus illicifolius ( <i>Japan Holly</i> )—A dwarf Holly-like plant with prickly leaves of yellowish green color.....	75
Plumbago Capensis—A slender-growing shrub, producing constantly light blue flowers in great profusion.....	40
Pittosporum Tobira—A low spreading shrub, with dark green and dense foliage, producing fragrant white flowers.....	50
“ Tobira foliis Variegata—Foliage of a lighter green than the above, and variegated with white.....	1 00
“ Nigrum—A distinct and beautiful shrub, with light green shining foliage, and dark colored branches.....	50
Pyracantha ( <i>Burning Bush</i> )—Orange scarlet berries during Winter, very ornamental.....	40
“ Lalandi—A fine, robust growing variety; the berries are clear yellow; new.....	50
Raphiolepis Ovata—This is a beautiful shrub, with dark, shining leaves, and spikes of fragrant flowers, which are highly scented.....	40
Rhamnus Croceus ( <i>California Wild Coffee</i> )—Flowers greenish white, very beautiful.....	50
Rhododendron, Hybrid Varieties—Grafted plants with buds,.....	5 00
Elegant flowering shrubs do best in partial shade.	
Swainsonia Alba.....	
“ Rosea—Beautiful summer flowering shrubs, with pea-shaped flowers.....	40
Veronica Andersonii—One of the best evergreen flowering shrubs; flowers violet blue.....	40
“ Variegated—A very handsome shrub, with variegated foliage and blue flowers.....	40
“ Imperialis—A new variety, with beautiful amaranth colored flowers.....	40
Viburnum Odoratum—Leaves large; fragrant flowers.....	50

## DECIDUOUS FLOWERING SHRUBS

Acacia Julibrissin ( <i>Silk Tree</i> )—An elegant small tree, with beautiful tufts of pink colored flowers, which resemble tassels of silken threads.....	75
Althea ( <i>Rose of Sharon</i> ).....	50
“ Violet Semi-Double.....	
“ Variegata ( <i>Variegated leaves</i> ).....	
“ Frutex ( <i>Single, red and purplish</i> ).....	

The Altheas are among our best flowering shrubs, and are therefore very desirable; the above are some of the best varieties in cultivation.

<i>Amorpha Fruticosa</i> ( <i>Wild Indigo</i> )—Native of Carolina and Florida; flowers dark bluish purple; in May and June.....	\$ 50
<i>Aralia Spinosa</i> ( <i>Angelica Tree</i> )—A handsome and distinct shrub, with large leaves and spiry stems, flowers white, in large spikes during summer.....	75
<i>Azalea</i> , Japanese varieties—Double and single varieties, the colors varying—white, purple, light purple, red, light yellow, and yellow. Each.....	75c. to 1 00
<i>Berberry</i> , Red Fruited—Very ornamental in Winter.....	25
“ <i>Purple Leaved</i> —A conspicuous variety, with violet purple leaves and fruit.....	30
<i>Brugmansia Knightii</i> —Flowers funnel shaped, pure white and fragrant.....	75
<i>Calycanthus Floridus</i> —Sweet scented shrub.....	40
“ <i>Occidentalis</i> ( <i>California Sweet Scented Shrub</i> )—Rich foliage and fragrant wood; flowers double, purple and very fragrant.....	40
<i>Caragana Arborescens</i> —A shrub or small tree with yellow flowers in early spring, very hardy; a native of Siberia.....	50
<i>Ceanothus Azurea Grandiflora</i> —A fine shrub producing a quantity of purple flowers during the Summer months.....	1 00
<i>Crape Myrtle</i> —Bodies Purple.....	50
“ <i>Crimson</i> —Bright deep crimson; distinct; profuse bloomer.....	50
“ <i>Pink</i> .....	25
“ <i>Scarlet</i> .....	50
“ <i>White</i> .....	50
The Crape Myrtles require a sunny situation, protected from the wind. The Pink variety is the most common and most profuse flowering variety.	
<i>Cornus Alba</i> —A nice shrub with white flowers, a native of Siberia.....	40
“ <i>Sanguinea</i> —White flowers, and the bark is blood red.....	40
“ <i>Variegata</i> —A fine variety; the leaves are variegated with white.....	40
<i>Corchorus Japonica Var</i> —A compact growing shrub; leaves handsomely edged with white; flowers yellow.....	25
<i>Deutzia Crenata</i> —A fine, profuse flowering shrub.....	25
“ <i>Flora Plena</i> —Beautiful double white flowers tinged with rose.....	25
“ <i>Crenata Candidissima</i> —Pure double white.....	25
“ <i>Gracilis</i> —A pretty shrub with pure white flowers produced in great abundance.....	35
<i>Elder</i> ( <i>Sambucus</i> ) <i>Cut-leaved</i> ( <i>Laciniata</i> )—Leaves curiously and elegantly divided.....	50
“ <i>Variegated</i> —The leaves are variegated with yellow.....	35
<i>Erythrina Crista-galli</i> ( <i>The Coral Tree</i> )—The flowers are pea-shaped, maroon red, and produced in long spikes.....	1 00
<i>Euonymus Americana</i> ( <i>Strawberry Tree</i> )—A very ornamental shrub, with glowing crimson fruit all Winter.....	35
“ <i>European</i> —A large growing specie, making finally a tree; fine foliage and large fruit....	35
<i>Exochorda Grandiflora</i> —Vigorous growing; finely shaped shrub, with light colored foliage and wood. A great profusion in May of the most lovely pure white flowers. A choice and very scarce plant.....	1 00
<i>Filbert</i> , <i>Purple Leaved</i> —A very conspicuous shrub with dark, purple leaves.....	35
<i>Forsythia Suspensa</i> —A profuse flowering shrub, with flowers of rich golden yellow.....	35
“ <i>Veridissima</i> —A fine shrub, producing bell-shaped yellow flowers in early Spring.....	35
<i>Hydrangea Hortensis</i> ( <i>Garden or Changeable Hydrangea</i> )—Japan, large, heavy dark green leaves, and massive globular heads of rose-colored, or sometimes blue flowers. A beautiful flowering shrub.....	50
“ <i>Variegata</i> —A variety of the above, having the foliage variegated with white.....	50
“ <i>Imperatrice Eugenie</i> —A variety of the <i>Hortensia</i> type, large corymbs of blue and pale rose-colored flowers.....	50
“ <i>Otaksa</i> —Foliage of a deep green color; rose-colored flowers in immense trusses in July; free bloomer. One of the semi-herbaceous kind, like <i>Hortensis</i> .....	50
“ <i>Lindleyana</i> —Japan. Long leaves; small heads of bright pink flowers.....	50
“ <i>Rosealba</i> —Flowers white and rose in small heads during June. Vigorous habit.....	50
“ <i>Thomas Hogg</i> —Abundant white flowers, in July and August in immense heads of 10 to 15 inches in diameter.....	50

Hydrangea, Thunbergii—Japan; distinct, bright rose-colored flowers.....	50
“ Paniculata Grandiflora—Vigorous; spreading form, immense pyramidal panicles of white flowers, more than a foot long, which change to pink, and finally to purple blossoms, from early August to frost. One of the best ornamental shrubs.....	50
“ Quercifolia—Vigorous shapely growth, large foliage, like that of the oak, downy beneath and richly tinted in Autumn; white flowers in spikes. One of the most desirable shrubs.....	75
Lemon Verbena—Leaves very fragrant.....	25
Lilac Josikea—Upright shape, irregular; deep lilac flowers in June, a choice lilac.....	35
“ Purple—Very fragrant.....	35
“ Persian—Foliage very small, flowers bright purple.....	35
“ Rubra Insignis—Red.....	35
“ White.....	30
Peonia Arborea (Tree Peonia)—Handsome varieties. Each, from.....\$1, \$2 to 3	50
Pomegranate, Dwarf—A handsome, dwarf growing kind, with orange scarlet flowers, blooming all summer.....	25
“ Double Scarlet—This makes a pretty little tree when trained up.....	35
“ Mad. Legrelle—A new, exquisite variety, producing large, double flowers of a rich aurora, the petals being deeply edged with white.....	35
Pomegranate, White Double—A beautiful variety with double white flowers.....	35
Prunus Triloba (Double flowering Plum)—Delicate pink flowers, thickly set on long, slender branches.....	40
Purple Fringe (Rhus Cotinus)—This variety is a low tree, with roundish head, and covered with reddish seed vessels like a purple mist.....	50
Quince Japan (Cydonia Japonica)—The Japan Quinces are all showy, winter flowering shrubs, of easy culture.....	40
“ “ White.....	
“ “ Red.....	
Rhus Laciniata—A beautiful low tree, with leaves of very large size, deeply cut and drooping gracefully from the branches; color of a rich red in autumn.....	50
“ Succedanea (The Japanese Wax Tree).....	75
Snow Ball (Viburnum Opulus)—An old favorite, tall growing shrub or small tree.....25c. to	50
“ Plicatum (Japan Snow Ball)—Moderate; upright growth; picturesque compact habit; brown shoots, solid, crinkled, or plicated; rich green leaves; balls of white flowers, larger and more solid than those of the common Snow Ball, and hang long on the bush. A remarkably choice and valuable shrub.....	50
“ Macrocephalum (Japan)—Leaves held late in fall; broad corymbs of white flowers in June. Rare.....	1 00
Spiræa Aurea—The leaves are of a beautiful yellow, giving the plant a very effective appearance	50
“ Billardii—Fine spikes of rose-colored flowers, blooms all summer.....	35
“ Double Flowering (Prunifolia)—Flowers are like white daisies; it is often called Bridal Wreath. One of the best and earliest blooming kinds.....	35
“ Reevesiana—A graceful, slightly drooping species; covered in May with abundant white flowers. One of the oldest and best spireas.....	35
“ Flora Pleno—A double flowering form of the above.....	35
“ Thunbergii (Japan)—Delicate, drooping, light yellow or yellowish green lanceolate foliage.....	35
The Spireas are elegant low shrubs of easy culture, combining the best qualities of a flowering shrub.	
Syringa or Mock Orange (Coronarius)—Strong growing, rounded habit; hardy foliage, pure white, very fragrant flowers in May and June. One of the best.....	35
“ Diantaeiflorus—A dwarf variety with cream colored flowers; very fragrant.....	35
“ Gordonianus—Vigorous; blooms freely; ten days later than other varieties; slightly fragrant.....	35
“ Grandiflorus—Strong growing; branches somewhat straggling; very large, slightly fragrant; flowers in June.....	30
Primulaefolia—A dwarf, elegant variety; leaves shaped like those of a Primrose.....	30

<i>Marechal Niel</i> “	
<i>Magna Charta</i> - - (Hybrid Bourbon)	
<i>Madame Isaac Periere</i> “	
<i>Madame Alfred Carriere</i> (Hybrid Noisette)	
<i>James Sprunt</i> (China)	
<i>Reine Marie Henriette</i> (Tea)	
<i>Reine Marie Pia</i> “	
<i>Gloire de Dijon</i> “	
<i>Princesse Stephanie</i> “	
<i>Reve d'Or</i> “	

*William Allen Richardson* (Noisette)

*Maria* “

*Baltimore Belle* (Prairie)

*Bennett's Seedling* “

*Prairie Queen* “

*Greville or Seven Sisters* (Prairie)

*White Banksia* (Banksia)

*Yellow Banksia* “

## STANDARD ROSES

These are budded on stems three to four feet high, and can be furnished in all the leading varieties, \$1 00 to 1 50 each.

## ROSES IN POTS

We can furnish all the leading varieties of the different classes of Roses in pots during the late Spring and Summer months, when it is no longer safe to take up the plants from the ground. These plants are well established in pots and are sure to give satisfaction.

## FRENCH HYBRID GLADIOLUS

The cultivation of this magnificent flower is very simple; it thrives in any soil, except the heaviest clay. By planting from February to June, flowers may be had from Spring until Winter. The bulbs should be planted four inches deep, and, if possible, in the full sunshine. The following is a very carefully selected list, and the descriptions are the result of our own observations and may be confided in as correct:

<i>Adanson</i> —Rose, slightly tinged lilac, large blotch on white ground tinged yellow, edged with carmine, flushed lilac.....	\$0 25
<i>Albion</i> —White, slightly tinged with lilac.....	25
<i>Amaranthe</i> —Fine, well-shaped flower, of pale violet rose ground, richly flaked and speckled with bright carmine.....	25
<i>Angele</i> —White, showy and effective.....	25
<i>Antigone</i> —Delicate rose, flamed with carmine.....	20
<i>Apollon</i> —Rosy lilac, with a large, light rose blotch, finely striped; white in the center.....	15
<i>Bernard de Jussieu</i> —Violet, shaded cherry and purple; purple blotch on white ground.....	15
<i>Brenchleyensis</i> —Bright vermillion scarlet.....	10
<i>Cervantes</i> —Flowers very large, of bright rose color, slightly tinged lilac; pure white band on each petal.....	25
<i>Ceres</i> —Pure white, spotted with purplish rose.....	20
<i>Comte de Morny</i> —Dark cherry red; large white blotch, streaked with lake.....	15
<i>Delicatissima</i> —White, suffused with soft carmine lilac; the pure white lower petals edged lilac.....	20
<i>Dona Maria</i> —Dark violet flamed with carmine; carmine violet feathered white blotch.....	20
<i>Edith Dombrain</i> —White ground; flamed dark carmine; blotch carmine purple.....	25
<i>Etendard</i> —White, slightly suffused with carmine.....	20
<i>Eugene Scribe</i> —Flowers very large and wide; perfect, tender rose, with blazed carminate red.....	20
<i>Felicien David</i> —Cherry; light carmine blotch, feathered white.....	20
<i>Galathea</i> —Nearly white, carmine stains.....	20
<i>Gulliver</i> —Tall spike, of large, bright carmine flowers, with conspicuous white bands in the middle of each petal.....	40
<i>Horace Vernet</i> —Bright purple red, large, pure white blotch, feathered red.....	25
<i>La France</i> —Fine, erect, firm spike, with pure white flowers, slightly flamed with carmine towards the edges.....	40
<i>Lord Byron</i> —Brilliant scarlet, blotched and flaked pure white; very showy.....	15

Amaryllis Belladonna.

Louis Van Houtte—Dazzling red.....	\$0 24
Penelope—Blush white, lower petals tinted with yellow streaked carmine.....	20
Rayon d'Or—Fine spike of delicate creamy yellow flowers, striped and flaked deep rosy purple.....	40
Reine Victoria—Pure white, carmine violet blotch; very vigorous.....	25
Rosea Perfecta—Fine, rose tinged violet, center very light; white veins on all petals (Perfection).....	25
Stella—White, slightly tinted with yellow and rose, flamed with carmine.....	25
Gladiolus Lemoinei ( <i>Lemoinei</i> )—Fine, good sized flowers, closely set on the spike, which is about one foot long; upper petals of a creamy white color, tinted with salmon red; the lower ones spotted with deep purplish crimson, bordered with bright yellow and salmon red.....	50

To those who do not care to have the names of descriptions sent with the bulbs, we offer without names, 12 first class bulbs, in fine mixture for \$1.00 or 1.00 first class bulbs for \$5.00.
